### **Inter College Model United Nations Conferences**

Model United Nations or MUN is an educational simulation of the United Nations where students assume the roles of diplomats and engage in debate on pertinent topics. Students get an opportunity to learn about diplomacy, international relations, and the United Nations. It involves researching, public speaking, debating and writing skills and above all critical thinking. Participants in MUN conferences, known as delegates, are

placed in committees and assigned countries, or occasionally other organizations or political figures, where they represent members of that body. They are presented with their assignments in advance, along with a topic or topics that their committee will discuss. Delegates conduct research before conferences and formulate positions that they will then debate with their fellow delegates in the committee, staying true to the actual position of the member they represent. During the academic session 2017-18, students participated in the following MUN Conferences and brought laurels to the College:
